

Datasheet – Solidflex 34/1800

Technical Data

| | |
|--------------------|--|
| Dead weight | 3500 kg |
| Dimensions (HxWxL) | 2720 x 2100 x 9200 mm |
| Max. extension | 34000 mm |
| Telescopic length | 5000 to 112000 mm |
| Working height | 22,000 mm – up to boom |
| Payload | 1800 kg |
| Drive | Honda gasoline engine |
| Accessories | Radio remote control, 4 hydraulic outriggers |

Boom

| | |
|--------------------|-----------------------|
| Angle | 0° to 165°, hydraulic |
| Pivoting range | 310° |
| Angle of elevation | 85° |

Features

The smart SHP control is the heart of every aluminum crane. It continuously monitors the position of all supports and the attached load, and calculates the maximum possible pivoting range in each case. In combination with the sensitive radio control, loads can be accurately and quickly picked up and set down.
